Test Case Template

For each test, the developer should: provide a test description, a test objective, the developer name and date tested. For each step, fill out the actions to be taken and describe the expected results, and indicate yes or no for each step depending upon the result. The peer tester should provide their name, date tested, indicate yes or no for each step depending upon the result, and a screenshot (thumbnail) of the result.

Test Case Template

Test 1	Create a New Todo Task Item			
	Test Objective: Verify that a user can create and add a new task to the Todo List.	Developer: Suresh Shrestha Date tested: 9/3/2026	Peer tester: Girma Dingeto Date tested: 2026/09/04	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail + Screenshot
1	Open the Todo application in a web browser.	The Todo application opens successfully.	Yes	Yes 
2	Click inside the Task field.	The Task field is ready for input.	Yes	Yes 
3	Complete the CSD 380 assignment in the Task field.	The task text appears in the Task field	Yes	Yes 

Test Case Template

4	Click the Add Task button.	The new task is added to the Todo List.	Yes	Yes 
5	Check the Todo List for the new task.	"Complete CSD 380 assignment" appears in the Todo List.	Yes	Yes 
Comments	The new task was successfully added and displayed in the Todo List. The creation function worked as expected.			

Test 2	Edit a Todo Task Item			
	Test Objective: Verify that a user can edit an existing Todo task item.	Developer: Suresh Shrestha Date tested: 9/3/2026	Peer tester: Girma Dingeto Date tested: 2026/09/04	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail
1	Locate "Complete CSD 380 assignment" in the Todo List.	The existing task is displayed	Yes	Yes 

Test Case Template

2	Click the pencil icon next to the task.	The Edit Form opens with the existing task.	Yes	Yes 
3	Change the task to "Complete CSD Test Plan."	The new text appears in the Edit Form.	Yes	YES 
4	Click the Save button.	The changes are saved, and the Edit Form closes.	Yes	Yes 
5	Check the Todo List for the updated task.	Complete CSD Test Plan appears in the Todo List.	Yes	Yes 
Comments	The task was successfully edited, and the updated text appeared in the Todo List. The edit function worked as expected.			

Test 3	Delete a Todo Task Item
--------	--------------------------------

Test Case Template

	Test Objective: Verify that a user can delete an existing Todo task item from the Todo List.	Developer: Suresh Shrestha Date tested: 9/3/2026	Peer tester: Girma Dingeto Date tested: 2026/09/04	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail
1	Open the Todo application.	The Todo application opens successfully.	Yes	Yes 
2	Locate "Complete CSD Test Plan" in the Todo List.	The task is displayed in the Todo List.	Yes	Yes 
3	Click the trash can icon next to the task.	The selected task is deleted.	Yes	Yes 
4	Check the Todo List.	The Todo List updates after the task is deleted.	Yes	Yes 
5	Confirm "Complete CSD Test Plan" is no longer displayed.	The deleted task no longer appears in the Todo List.	Yes	Yes 
Comments	The selected task was successfully deleted from the Todo List. After clicking the delete icon, the task was no longer displayed, so the delete function worked as expected.			

Test Case Template

Test 4	Prevent Empty Task Submission			
	Test Objective: Verify that a user cannot add a Todo when the Task field is empty.	Developer: Suresh Shrestha Date tested: 9/3/2026	Peer tester: Girma Dingeto Date tested: 2026/09/04	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail
1	Open the Todo application.	The Todo application opens successfully.	Yes	Yes 
2	Leave the Task field empty.	The Task field remains empty.	Yes	Yes 
3	Check the Add Task button.	The Add Task button is disabled when the Task field is empty.	Yes	Yes 
4	Try to click the disabled Add Task button.	The user cannot submit an empty task.	Yes	Yes 
5	Check the Todo List.	No empty Todo task is added to the list.	Yes	Yes 

Test Case Template

Comments	The application did not allow an empty task to be submitted. The Add Task button remained disabled when the Task field was empty.
-----------------	---

Test 5	Invalid URL/ 404 Error Page			
	Test Objective: Verify that an invalid Todo URL displays the application's custom not-found page.	Developer: Suresh Shrestha Date tested: 9/3/2026	Peer tester: Girma Dingeto Date tested: 2026/09/04	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail
1	Open the Todo application.	The Todo application opens successfully.	Yes	Yes 
2	Click the browser address bar.	The Todo website URL is displayed	Yes	Yes 

Test Case Template

3	Enter an invalid Todo URL.	The application recognizes that the URL is invalid.	Yes	Yes 
4	Press Enter to visit the invalid URL.	The application redirects to the not-found page.	Yes	Yes 
5	Check the page displayed in the browser.	The custom not-found page displays "not-found works!"	Yes	Yes 
Comments	The application handled the invalid URL correctly and displayed the custom not-found page. The browser redirected to /Todo/not-found and displayed "not-found works!", so the invalid URL requirement worked as expected.
